

Rene Ortega

👤 Profile

Front-end web developer. Recently earned a certificate in full-stack development from the The University of Central Florida in full-stack web development, newly developed skills. Known as an innovative problem solver passionate about developing apps, focusing on mobile-first design and development. With each project, my aim is to best engage my audience for an impactful user experience. I applied aspects of UX and agile development in a recent project. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web. I am a quick learner, I don't give up. I am always open to learning what's best for the company I will work for.
